Repositioning Sustainability with a Vision

Clean Sri Lanka project, aims to address a cleaner physical environment and a nationwide moral commitment to enhance ethical principles. Enhancement of the three pillars of sustainability; Economic, Social and Governance (EESG), have been identified as the framework to address the overarching objectives of this strategic plan with specific stakeholder goals, actions, time lines and outcomes.

Vision

Beautiful Island, Smiling People

Mission

The mission of the Clean Sri Lanka project is to reposition the nationwide efforts of environmental, social, and governance initiatives through introducing change, integration, and collaboration.

Objectives

1. Foster ethical practices, zero tolerance for corruption, public accountability, and reward excellence.
2. Foster a mindset of environmental responsibility and social consciousness.
3. Ensure a clean and sustainable environment by optimizing usage of natural resources.
4. Strengthen and streamline the waste management system by leveraging public and private sector coordination and improving infrastructure.

Solutions for a Sustainable Future

1. Governance Sustainability (policy advocacy, ethics, risk management, partnerships & collaborations, transparency, monitoring and accountability).
2. Social sustainability (Community Engagement & Education, Inclusion & Empowerment, Health and Well-being)
3. Environmental sustainability (Energy, emissions, Water, Biodiversity, Waste management, circularity & cleanliness)
4. Economic sustainability (Green jobs, sustainable industries & businesses, green investment & entrepreneurship).
